Uniformity of the propaganda media is assured by the orientation passed by Liri Belishova to the Chief Editor of ZP (Fadil Pacrami) and the Chief of the Agit-Prop Directorate (Nexhmije Hoxha). Occasionally Radio Tirans would ask ZP writers to supply an article, but this was done on a personal basis and the writer would receive payment for the article. b). There was one person responsible for all foreign broadcasts (the Chief of the Foreign News Section), and broadcasts in all languages were practically the same. Editorials of ZP are of the highest significance. At least 60 percent of the editorials are written by personnel of ZP. An editorial concerning an agrarian problem might be written by a high official in the Ministry of Agriculture, and the article would be put in good form by ZP writers. Editorials concerning other problems, such as communications, health, etc., might be written by persons in the ministries concerned.	25X1
